

ENVIRONMENTAL POLICY

Environmental protection is one of the significant factors determining the current functioning of our organization and is becoming increasingly important due to the growing ecological awareness of the environment in which The Underground Garage Company operates.

The Underground Garage Company's activity to a large extent touches on environmentally harmful substances, such as various types of paints, varnishes, and solvents, which are detrimental to the environment. We use such products, which is may be connected with the risk of damage and causing pollution.

Taking into account the principles mentioned above, the management of the Company The Underground Garage undertakes to:

- Treat environmental management as one of the priorities and create a programme and methods of action to
- to conduct its business in an environmentally sound manner,
- Manage processes in a way that enables continuous reduction of adverse environmental impacts,

- Reduce emissions of pollutants into the air,
- Manage to package rationally,
- Reduce waste,
- Protect soil and groundwater from pollution,
- To comply with all applicable environmental laws and regulations applicable to the Company's business, and
- take into account the requirements of other stakeholders, such as customers, public administrations,
- To monitor and assess the impact of an organization on the environment and to develop environmental protection programs on its basis, to provide resources necessary for their implementation, and to monitor the implementation of these programs.
- Assess, at the decision-making stage, the potential environmental impact of the new activity,
- Advise, and where possible instruct, customers, suppliers and the general public about safe practices
- transport, storage and disposal of waste,
- Support recycling schemes for used products and packaging.
- Raise the knowledge of their employees by informing them about the Company's environmental protection policy and the appropriate environmental protection measures.
- Training programmes and motivate them to work in an environmentally responsible manner, and
- in line with the principles of this policy,
- Active cooperation with local authorities.

It is essential to maintain good relations with the environment. Therefore the information on the environmental policy will be made available on request to persons outside the Company.

Robert Modzelewski
